GOVERNOR'S REMARKS

by: Remi Sauve

WOW did anyone see summer go by? But in my world that's ok. I love seeing fall and the clubs coming back alive and looking forward to the white stuff and to get out there riding.

It's amazing how all clubs seem to overcome a lot of issues to deliver the best trails possible.

This year we had a lot of great news stories with federal money helping a lot of clubs – to better the trail system, and the benefit of selling extra permits helped lower fuel cost etc. The more we see this help the better our clubs can lay down the product. I have been talking to a few dealers and they are amazed at how sled sales are going. One dealer had 26 used sleds in August and is now down to six and he would of loved to had more. He also told me he had taken some atv's on trade for sleds. When is the last time we heard that?

I guess that this all comes down to one thing that is the terrific job that all of you are doing. Keep up the great work and we will see you all on the snow this winter.

NEW Trail Permit Prices

\$200. - before Dec. 1
\$250. - after Dec. 1
